BETTER TOGETHER

- Attackers + AI agents ship exploits at machine speed
- Security + dev teams get buried in noise and churn
- The imperative: raise defense velocity - without burning people out

From Generation to Remediation — Better Together

- Real-time detection the moment code is created
- Smarter prioritization across code, apps & runtime
- Seamless remediation workflows that teams actually use

3 Pillars to Be in Control

CISOs need authority - not just alerts.

CLEAR OWNERSHIP

Know who owns what risk

ACTIONABLE PRIORITIZATION

Fix what matters first

ORGANIZATIONAL ALIGNMENT

Board + CTO aligned on the plan

Confident reporting • Directed remediation • Continuous risk reduction
